Limitless custom clothing

SOLO Group | PARIS

Editorial

Dear customer,

We are delighted to bring you the 33rd SOLO Group textile brands' catalogue.

Throughout its pages, you will discover the new products for 2024, new trends, new colours and new looks. As always, we have developed our offering with **the highest standards of quality, style and sustainability.**

From the outset, our goal has been to better meet market expectations, while bringing customers the modernity and quality they need. In short, **to allow everyone to express their uniqueness by wearing a garment or accessory they trust,** which conveys sound values and is up to the message it communicates.

In line with our long-standing commitment, this year again our eco-friendly offering keeps growing. In order to easily identify the 96 models distributed throughout the catalogue, we have created a specific presentation that will allow you to quickly find them.

You will also find inserts aimed at shedding light on materials or certifications to make technical aspects clearer.

2024, like the previous year, promises to be full of opportunities and challenges for the promotional garment and gift market. SOLO Group positions itself as one of the leading players with one of the most comprehensive offers, guaranteeing you choice, quality and service.

Thank you for your trust and loyalty, year after year.

Sincerely,

Alain Milgrom
Chairman

Audélia Krief
CEO

"Trust what you wear

We care about product, people, planet

From the outset, we have been committed to a global approach aimed at making our industry more virtuous. We know that, as a leader, we have an important role to play in improving practices. Our goal is to make market expectations compatible with the need to reduce our environmental impact, while improving our social footprint.
We are therefore committed to many demanding actions aimed at achieving this goal.

Day after day, year after year, we are developing more and more models made from organic and/or recycled materials. At the same time, we adhere to demanding quality standards to ensure our garments are worn and stay comfortable for a long time.

We require our production sites and partners to comply with a rigorous and strict commitment charter so that, together, we reduce our CO_2 emissions, our water consumption, our waste, etc. So that, together, we improve working conditions, diversity and equality. So that, together, we guarantee everyone the right to express their uniqueness through garments that convey sound and respectful values.

wear what you trust"

Our full list of actions and commitments is set out in our wear&care programme, based on 3 key areas: Product, People and Planet.

PRODUCT

ENSURING SUSTAINABLE CONSUMPTION AND PRODUCTION PROCESSES

Through timeless designs;
Through high quality standards;
Through the use of organic, recycled or reused materials, wherever possible.

Markets

Publicity and promotions

Customised clothing is great for publicity and promotions provided it is well-fitting, good quality and suited to the needs of the people wearing it. T-shirts, sweatshirts, polo shirts and more: the SOLO Group fully meets all market needs.

Corporate, hospitality and catering

Providing the right clothing for service and reception staff in the hotel and catering industries is essential to ensure that brands stand out from the competition and are recognisable to their customers. Shirts, jackets, aprons and trousers can be personalised to create corporate team uniforms.

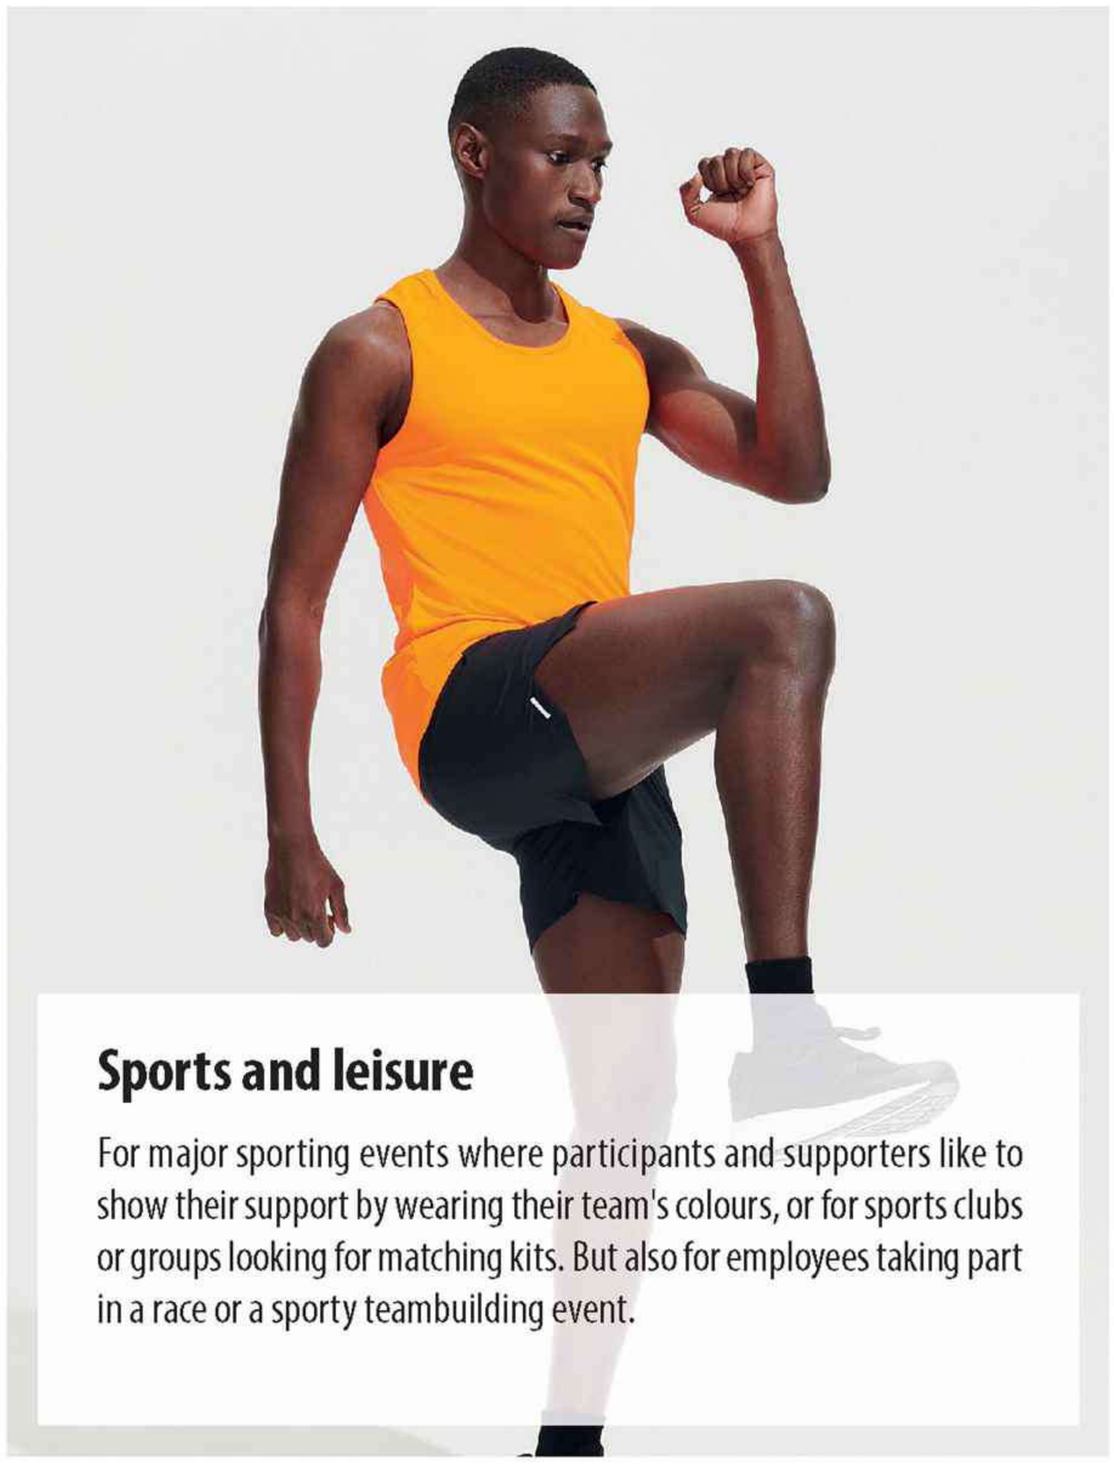

Workwear and PPE

Workwear trousers, polo shirts and jackets as well as T-shirts and sweatshirts can be personalised for staff working on sites or for independent businesses. Corporate equipment and technical or protective clothing to guarantee employees are comfortable.

Schools and universities

Echoing American college traditions, students all over the world proudly show off their allegiance to their college or university. Their favourite outfits include T-shirts, hoodies, baseball caps and jackets. Our ranges offer a wide selection of styles and colours.

Sports and leisure

For major sporting events where participants and supporters like to show their support by wearing their team's colours, or for sports clubs or groups looking for matching kits. But also for employees taking part in a race or a sporty teambuilding event.

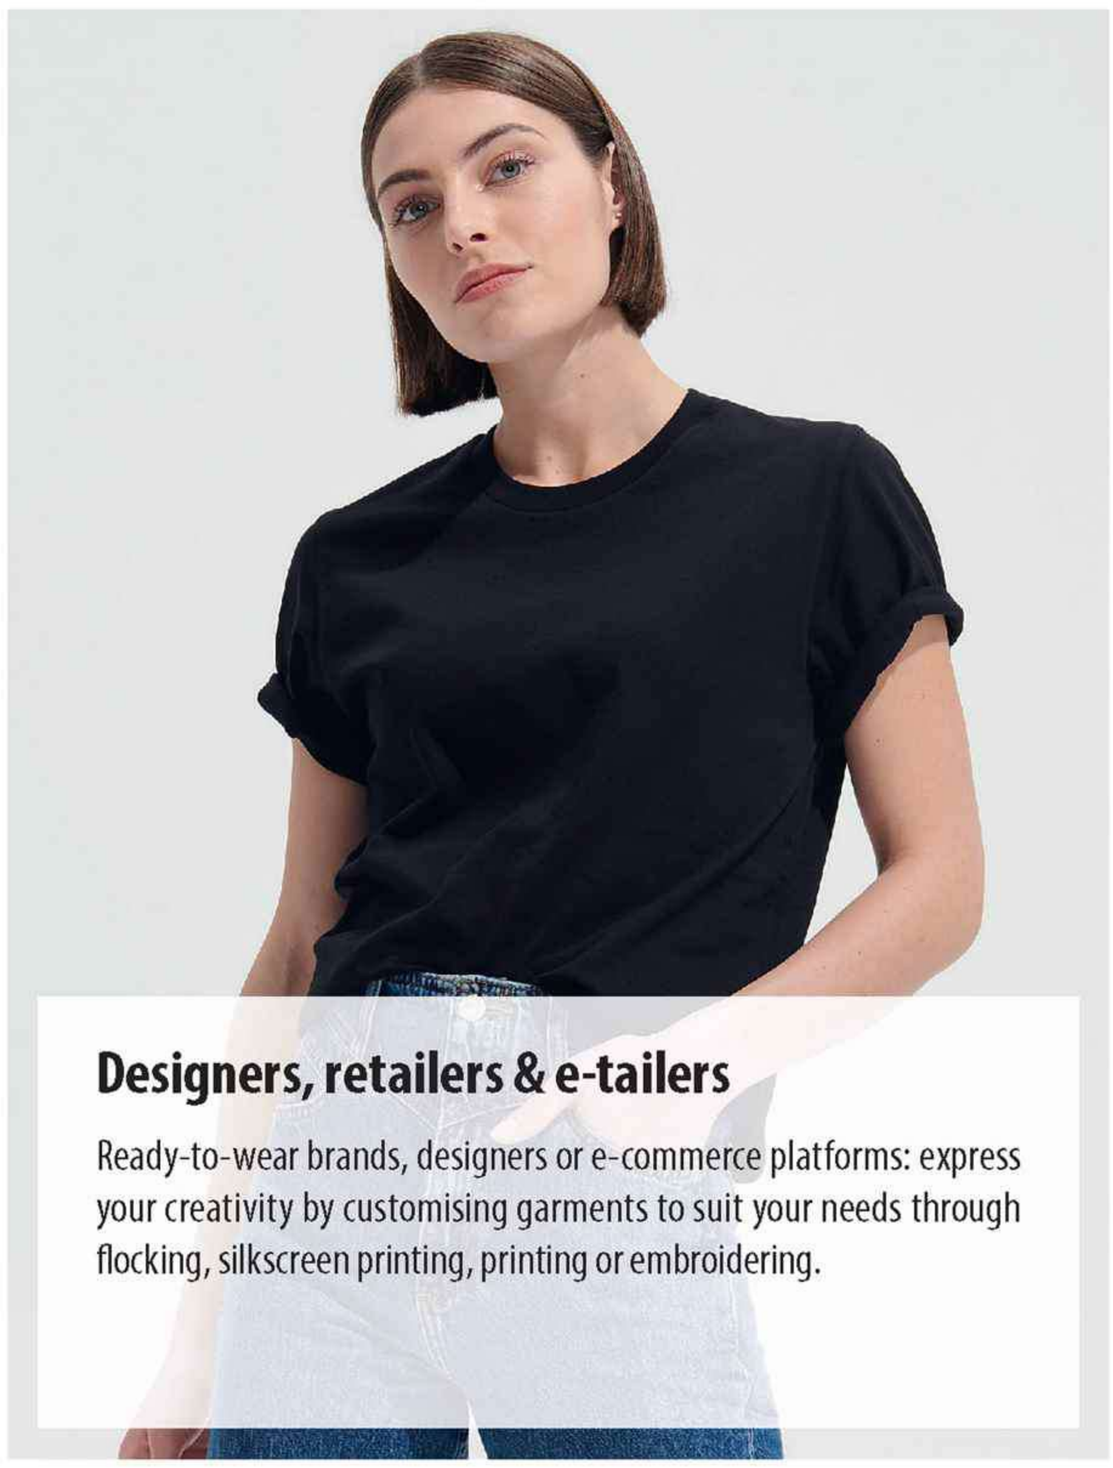

Events and shows

For organisers of events, shows and concerts looking for textile for all their branded products. T-shirts printed with a singer's image, souvenir tote bags for a show or baseball caps for staff.

Souvenir & tourism

For gift shops in tourist offices, museums, theme parks or castles, personalised clothing is essential: branded or embroidered T-shirts, sweatshirts, baseball caps, tote bags or towels are the favourite souvenirs amongst visitors and tourists.

Designers, retailers & e-tailers

Ready-to-wear brands, designers or e-commerce platforms: express your creativity by customising garments to suit your needs through flocking, silkscreen printing, printing or embroidering.

Organic cotton: what is it?

Cotton is the most produced plant-based material in the world. Organic farming practices bans pesticides or chemical fertilizers but also the cultivation of GMO seeds. Thus, organic farming conducts to avoid the use (and manufacturing) of synthetic inputs[1]. It has a combined effect: reducing energy consumption by up to 30-70 percent per unit of land[2] and makes organic farmers less dependent from agrochemical groups.

Organic farming is also recognised as a vital tool in climate change mitigation as it can build soil carbon and lower GHG emissions[3].

1 Seufert & Ramankutt, 2017 - Many shades of gray - The context-dependent performance of organic agriculture.
2 IFOAM-Organics International, 2020 - Organic Agriculture Countering Climate Change.
3 IPCC, 2019 - Special Report on Climate Change and Land.

Recycled cotton: how is it done?

There are several ways to recycle cotton. At SOLO Group, we only use «pre-consumer» recycled cotton.

This involves recycling fabric scraps generated during the manufacturing of garments.

These fabric pieces will follow the exact same process as conventional cotton: they will be transformed into fibers, spun, knit and dyed (in order to guarantee colour consistency).

SOL'S TUNER

PRODUCT HISTORY

Since 1990, Direct to Garment (DTG) technology has continuously improved, focusing on quality, speed, versatility, durability, and automation.

We have designed a new fabric that perfectly meets the requirements of digital printing while selecting high-performance dyes and textile auxiliaries: SOL'S TUNER was born.

It is this combination that offers a perfect solution for digital printing, allowing for excellence and consistent production.

3 KEY FACTS ABOUT SOL'S TUNER

COTTON USA ™

The SOL'S TUNER t-shirt is made of 100% high-quality cotton, grown in the United States. In line with certification requirements according to US guidelines and PROP 65.
Learn more: https://www.cottonusa.org/

Comfort and trendy sizing

When we created SOL'S TUNER, we wanted everyone to feel comfortable wearing it. We opted for a comfortable sizing to offer a more universal and trendy fit.

Excellent product quality

We adhere to retail quality parameters, which include pre-shrinking the fabric, controlling twisting, and colour change after repeated washing cycles. We also adhere to the most reliable and consistent supply chain standards to meet the strictest licensing requirements.

FOR WHOM?

SOL'S TUNER is particularly suitable for:

Retail
E-commerce platforms
Print on demand
Merchandising

Explanation of *Organic Certifications*

When we say that a garment is certified organic, it means that it has obtained the label issued by a certifying body.

This organisation ensures that each step of the product's manufacturing process meets the strict standards of the label.

SOLO Group markets organic cotton garments under the OCS (Organic Content Standard) label: OCS 100 and OCS BLENDED, as well as models made from cotton in conversion under the GOTS (Global Organic Textile Standard) label.

The certifying body ensures the traceability of our products. Its role is to trace the material and ensure that throughout the production chain, organic cotton is never mixed with conventional cotton.

CU815208

This certification covers the processing, manufacturing, packaging, labeling, marketing, and distribution of any product containing at least 95% certified organic materials.

CU815208

This certification applies to garments made from a blend of organic cotton and other materials. This standard indicates that the garment is composed of a minimum of 5% certified organic cotton.

CU815208

This certification guarantees that a minimum of 95% organic fibers make up the product and that, from the production of the raw material to the production of the finished product, the processes used are socially responsible and environmentally friendly. This certification covers all stages of manufacturing up to the sale to the end customer.

Organic Cut and Sewn

Our SOL'S LEGEND t-shirt is the first SOL'S organic model to be cut and sewn.

The organic combed cotton jersey (grown without pesticides or herbicides) is smooth, durable, and environmentally friendly. It provides an excellent base for customisation.

Unlike the tubular technique, which involves having the body of the t-shirt in one piece, the cut and sewn construction involves assembling the front and back pieces through side seams.

This technique has multiple advantages: it perfectly adapts to the consumer's body shape, strengthens the fabric through seams, and most importantly, makes the work of our screen printing partners easier.

20%

Recycled cotton from our own scraps

During the cutting of a garment, on average, 20% of the material is lost and discarded. For the production of our SOL'S ODYSSEY t-shirt, we collect our scraps and recycle them to turn them back into fabric.

For greater environmental respect, we do not dye this new fabric. Indeed, this step in the production process requires a lot of water and energy, which is why we collect the waste by colour. This explains the slight variations and irregularities in colours in the finished product, which significantly reduces the environmental impact.

3 years

IC2 (in conversion)

When cotton farmers decide to switch to organic farming, they start applying organic methods from the first year. However, it is considered that it takes 3 years for the soil to eliminate all traces of chemical agents. That is why cotton, although grown according to the constraints of organic agriculture, can only be certified organic after 3 years. During the transition period, it is referred to as «in conversion».

Atelier Textile Français

Beyond meeting a strong demand, offering clothing and accessories made in France, as ATF does, is a virtuous global approach. Indeed, this contributes to the creation of direct and indirect jobs in France, the development of lost know-how, and the re-industrialization of the territory for greater autonomy.

The quality of our clothing is guaranteed by the expertise of the various workshops that work on the production of our garments.

French terry

French terry, also known as loopback knit, is ideal for making sweatshirts. Lighter and less warm than fleece, it is comfortable in any season.

French terry is recognisable by its loops on the back of the fabric. These loops make it particularly comfortable and give it absorbent properties.

You can find it, for example, in our range of eco-friendly sweatshirts SOL'S Calypso and SOL'S Constellation, or in the SOL'S Jet jogging pants.

AWARE
THE TRUE STORY OF RECYCLED FABRICS

Aware™ is an innovative start-up that provides transparency and traceability to consumers.

To do this, trackers are integrated into the fiber, they are the unique identifier of the material and will record information from each step of the garment manufacturing process.

Several pieces of information are collected (factory name, address, manufacturing process): they constitute the digital passport of the product and are stored in the trackers.

All this information is certified and accessible via a QR code on the label, allowing users to know everything about the garment they are wearing and that the fiber used is the same from beginning to end of the chain.

THE SHIRT ART

CHOOSE THE RIGHT MODEL

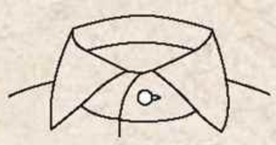

COLLARS

Classic collar

The classic collar is the most common type and is slightly spread. This traditional model is a must-have, ideal in all circumstances and suitable for both business and casual styles.

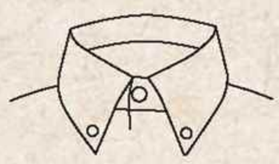

SOL'S BALTIMORE FIT
p150

Italian collar

Fairly similar to the French collar, it is characterised by a wider opening and slanted points, cut away from the perpendicular.

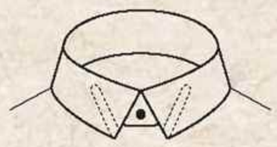

NEOBLU BLAISE MEN
p158

Button-down collar

The distinguishing feature of this collar resides in the buttons that fasten its points. They give a good support to the collar.

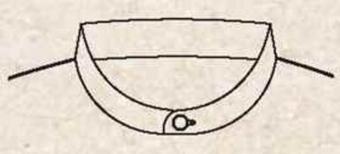

SOL'S BOSTON
p152

Stiffened collar

This option is available for some of our shirts. It is possible to offer a better support to the collar by adding stays on its points, which prevent it from deforming. Thus, the stiffened collar gives the shirt a chic and dressy style.

SOL'S BRISBANE
p153

The mandarin collar

The mandarin collar is a simple collar stand with rounded corners. It is easily recognised as it has no flap.

NEOBLU BART MEN
p158

PLACKETS

French placket

SOL'S BRIGHTON
p154

Conventional placket (American placket)

SOL'S BURMA MEN
p160

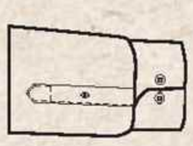

Concealed placket

NEOBLU BART MEN
p158

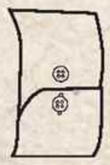

CUFFS

Bound slit

The bound slit is located at the wrist level. It is a pointed slit that gives a smart finish to the shirt.

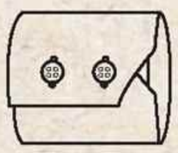

SOL'S BRODY MEN
p157

Adjustable cuff

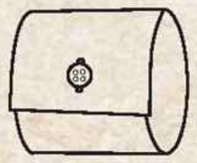

More comfortable

FABRICS

Herringbone

Herringbone fabric adds a refined touch to shirts, for a dash of originality. This fabric is soft and silky, making it easy to iron.

Cotton micro twill

Soft and comfortable fabric for easy-to-wear garments.

Piqué cotton

Cotton piqué creates a stylish yet casual look.

Denim

Renowned for its durability, denim lends itself to corporate wear as well as casual styling. A timeless, must-have fabric in your wardrobe.

Mercerised cotton jersey

Mercerised cotton showcases the strength and silky appearance of cotton, with a very soft feel.

Oxford

Strong fabric with visible grain. The Oxford construction combines value and tradition.

Washed poplin

It offers a superior comfort and a pleasant touch.

Polycotton poplin

Made out of polyester and cotton fibres, it combines the strength of polyester with the comfort of cotton, offering a very easy care.

Stretch poplin

Lightweight and comfortable to wear. The stretch material allows great freedom of movement.

CUTS

CHOOSE THE RIGHT CUT FOR YOUR SHIRT

REGULAR fit

SOL'S BRODY MEN
p157

Straight cut

Unfitted cut, straight fall.
A loose fit that prioritizes comfort.

ADJUSTED fit

SOL'S BALTIMORE FIT
p150

Adjusted cut

A modern and the most universal cut, suited to the majority of men. This cut is slightly tighter around the chest so as to emphasise the silhouette without being too close-fitting. Ideal for the Corporate range.

SLIM fit

SOL'S BLAKE MEN
p156

Slim fit

Closer to the body and fitted at the waist, it is a cut that hugs the curves and really enhances the silhouette.

FITTED cut

SOL'S EDEN
p154

Fitted cut

Essential cut of the women's closet, it highlights the waist of women. Wider at the chest and hips, it remains comfortable and chic.

THE ART OF THE SUIT

CHOOSING THE RIGHT MODEL

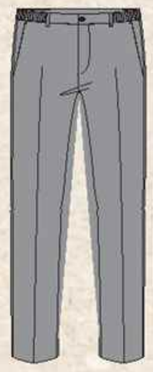

CONVENTIONAL LOOK

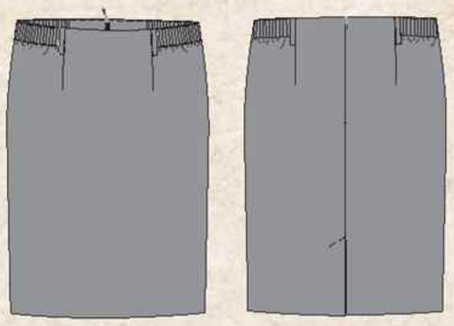

NEOBLU Marius
p166

Fully lined twill suit jacket. Its notched collar, flap pockets, and back vent make it the ideal jacket for a flawless look.

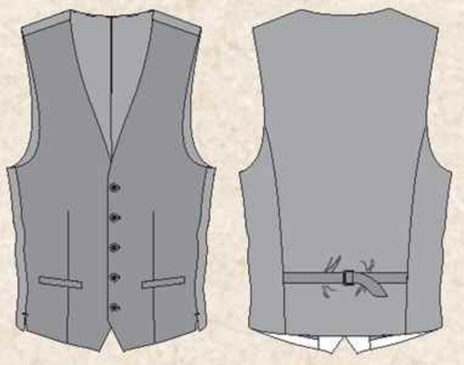

NEOBLU Gabin
p167

With its invisible elastic waistband, these suit pants are particularly suited for a formal, elegant yet contemporary look.

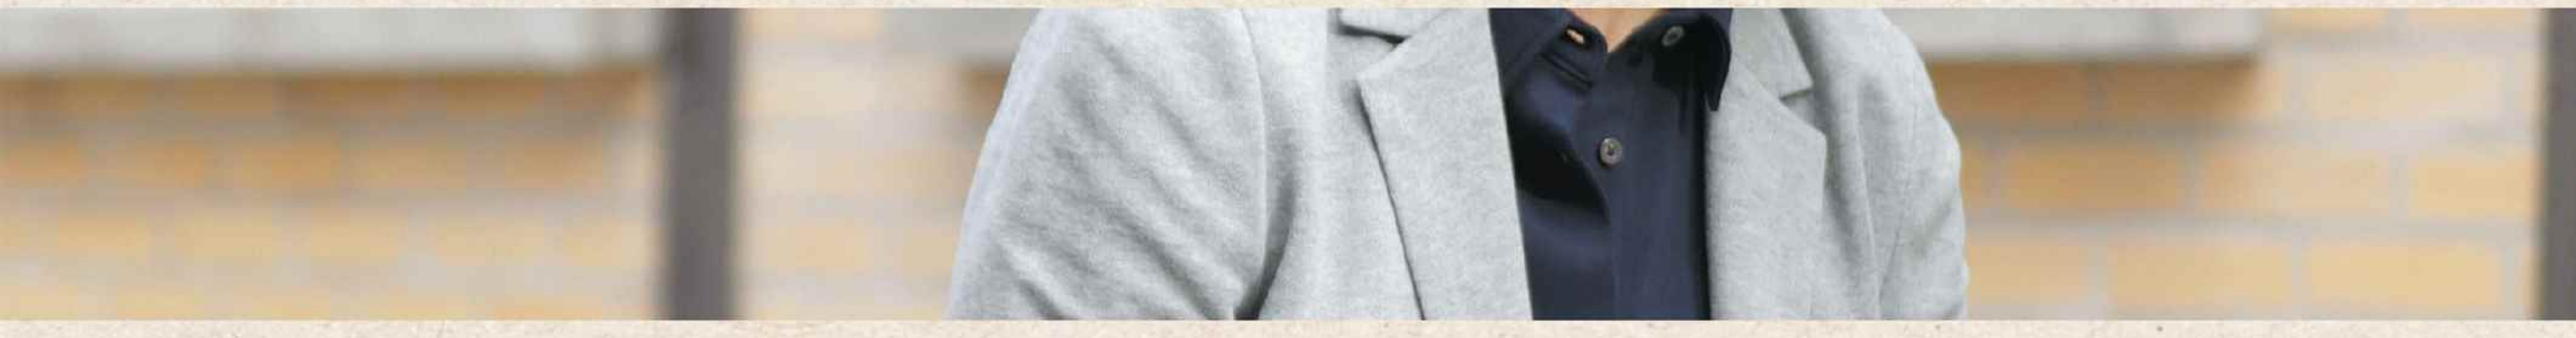

NEOBLU Constance
p168

Elegant and sophisticated, this knee-length straight skirt can be worn in endless ways. Its elastic waistband and invisible zip closure at the back make it both comfortable and stylish.

NEOBLU Max vest
p166

The ultimate piece of the 3-piece suit, the vest is the extra touch that makes a difference in terms of elegance. Its 5 buttons, welt pockets, and back strap all contribute to the comfort and style of the wearer.

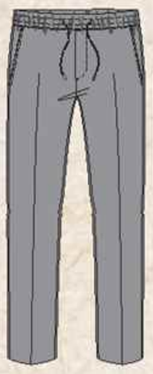

ELEGANT AND CASUAL LOOK

NEOBLU Marcel
p169

Semi-lined suit jacket. Its classic cut combined with its quilted knit make it the ideal jacket for an elegant yet casual look.

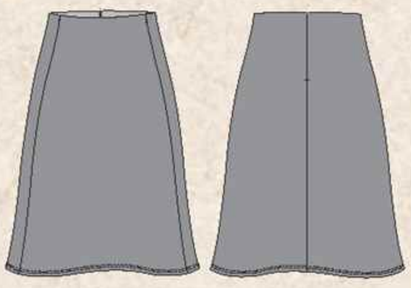

NEOBLU Germain
p167

The ultimate unisex pants, NEOBLU GERMAIN has the look of a modern suit pants and the comfort of joggers. Perfectly suited for urban mobility, it offers remarkable comfort thanks to its elastic waistband and drawstrings.

NEOBLU Camille
p168

Simple and contemporary, the short-sleeved midi dress can be worn at any time of the day for an elegant look. Feminine with its rounded neckline, it is also comfortable to wear thanks to its soft and lightweight milano knit.

NEOBLU Chloé
p168

An essential piece in the women's wardrobe and suitable for all body types, the A-line skirt offers an elegant image to the women who wear it. With its invisible closure and milano knit, it has a perfect drape.

RWS Wool

The merino wool used in the NEOBLU collection sweaters is certified RWS (Responsible Wool Standard). This guarantees full traceability of the wool from certified farms. This certification commits breeders and farmers to ensuring animal welfare throughout their lives and to good management of agricultural land and biodiversity. It is also a guarantee of respect for social practices as recommended by the International Labour Organization.

Recycled Polyester

The recycled polyester we use is made from used plastic bottles. After being collected, these bottles are washed and cut into chips, which are then melted and transformed into polyester yarn that can be woven into comfortable and high-quality clothing.

All of our recycled polyester material is GRS (Global Recycled Standard) certified, which guarantees not only the recycled content but also verifies compliance with environmental and social criteria. Only products made with a minimum of 50% recycled polyester are GRS certified.

SORONA®, an ecological alternative to down and feathers

To replace the filling of down jackets or other parkas made from animal down or feathers, we use an ecological alternative with remarkable performance in terms of warmth, care, and quality.

Made through a process of glucose extraction and fermentation, SORONA® requires less energy and water than other synthetic materials such as nylon, reducing our dependence on oil.

Moreover, this polymer is made from 37% renewable plant compounds (corn), making it a real ecological alternative to animal feathers.

The Origine France Garantie (OFG) label has been in existence since 2011. Its objective is to provide clear information to consumers about the origin of the labeled product.

In concrete terms, it guarantees that the place where the product acquires its essential characteristics is located in France and that at least 50% of the unit cost price is acquired in France. This label is awarded by authorized and independent certification bodies.

Regarding ATF products labeled OFG, the yarn, weaving, manufacturing, packaging, and accessories are produced in France.

MATERIAL GUIDE

THE FIBRES

RINGSPUN

Our T-shirts are knitted with superior quality Ringspun yarns, offering garments a soft handfeel that makes them pleasant to wear and perfect to print. It is the European quality answer to American looser and less sophisticated weaves that use open-end cotton.

COMBED COTTON

With its long fibres, it is so called because the yarn is combed to remove impurities and shorter fibres, making the material smoother and stronger. Perfect for digital printing.

ELASTANE

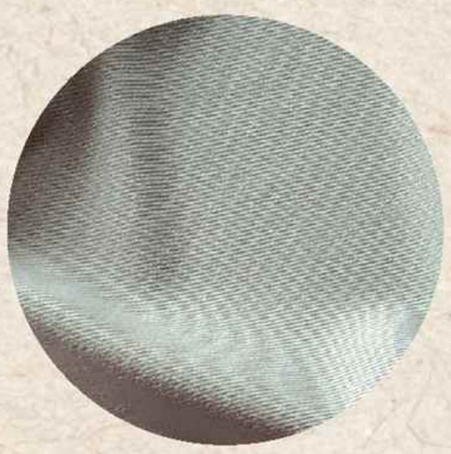

A very stretchy yarn that is mixed with cotton to provide greater elasticity and comfort.

VISCOSE

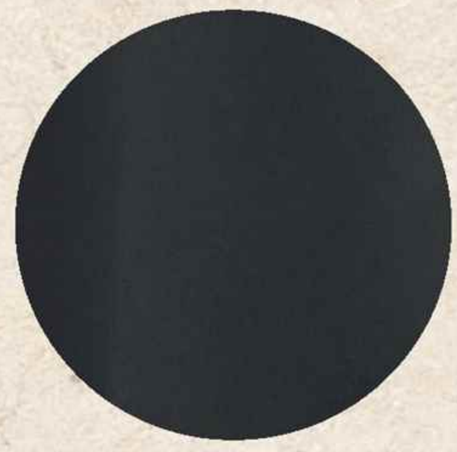

Viscose is a fibre obtained from plant cellulose. Visually very similar to silk, this material is much stronger. It is often found in sweaters or suits.

KNITS

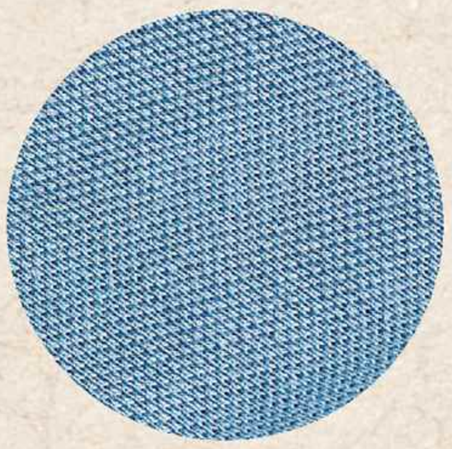

JERSEY

This basic knitting makes the material soft, strong and supple with a smooth surface ideal for all customisation techniques.

MILANO

Milano fabric is a soft interlock jersey with excellent shape retention. The face has the appearance of jersey, whilst the reverse is ribbed. It is ideal for dresses and skirts.

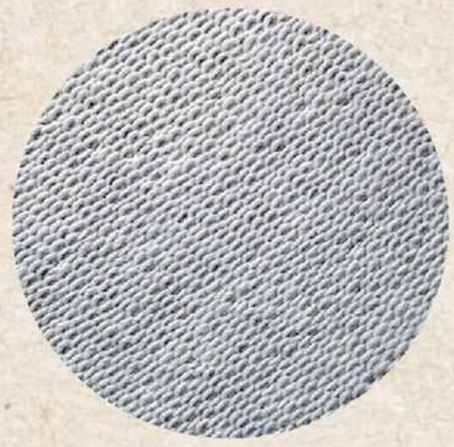

PIQUÉ

Very comfortable fabric with a honeycomb pattern, mainly used for polo shirts. Thanks to its combed cotton, our piqué has a particularly smooth surface perfect for all customisation techniques.

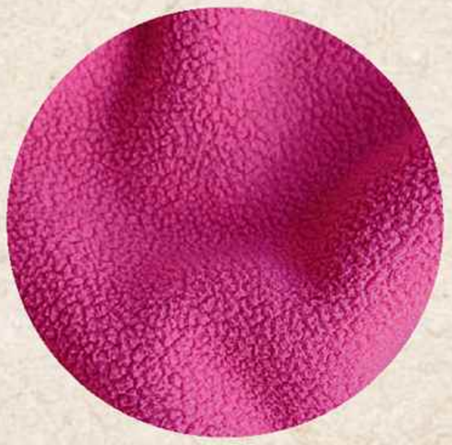

POLAR FLEECE

Polyester knit, thoroughly brushed on both sides, which resembles fleece. All our polar fleeces have an anti-pilling treatment, which prevents the formation of pills caused by friction.

FRENCH TERRY

French Terry has one flat side and the other with large loops. When the loops are in contact with the skin, they provide a better absorption of humidity and a greater comfort.

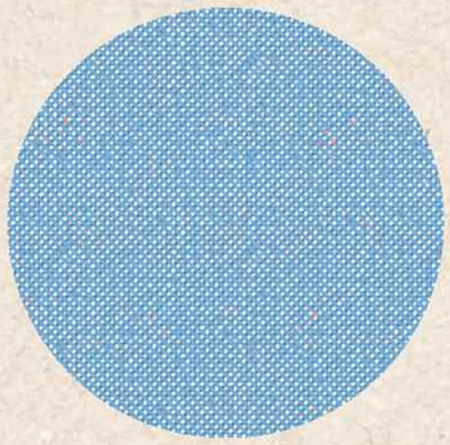

FLEECE

Heavy knit with polyester and cotton. Its inside surface is brushed to make it warm and soft.

WEAVES

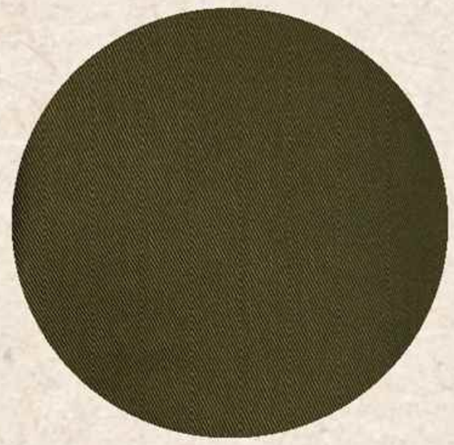

POPLIN

Poplin is a weave with a fine, tight rib. This supple fabric is very comfortable. It is mostly used for making shirts.

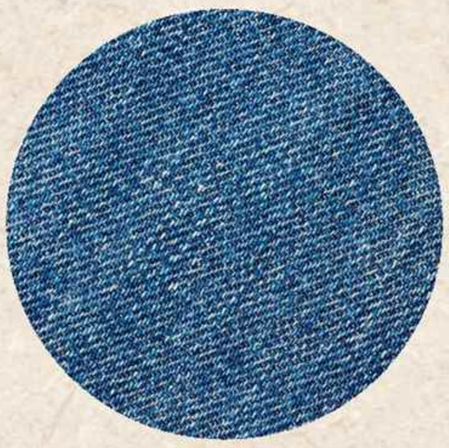

OXFORD

Soft, very strong fabric used for shirts. Coloured yarns are used for the warp while white yarns make the weft, emphasizing the plaiting effect.

TWILL

Cotton or cotton blend serge fabric with thin, diagonal ribs.

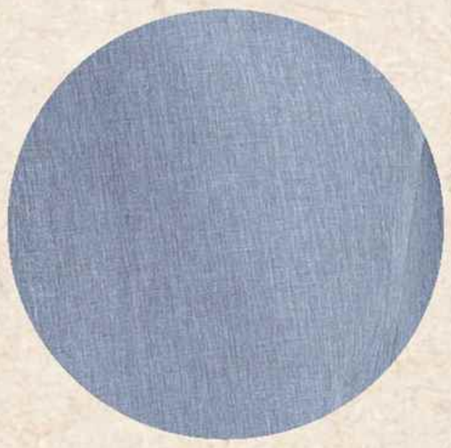

DENIM

High-quality, tightly woven fabric. Denim usually comprises a blue warp and a cream or white weft. Its twill weave forming diagonal lines makes it visually recognisable.

CANVAS

Also known as cretonne, this is a hardwearing fabric with a tight weave. Usually made from cotton yarns with a square structure, it is perfect for making bags.

SOFTSHELL

Material consisting of three layers: the outer layer is neoprene-based with added elastane, the inside layer is a micro fleece, with a technical layer in-between. The material is insulated for warmth, water-resistant, breathable and wind-proof.
